

VORTEX MARINE CONSTRUCTION

Job Title: Ballena Isle Breakwater Construction
Location: Alameda, CA
Owner: Almar Management, Inc.
Prime: Vortex Marine Construction
Date: December 2004 - Present
Description: Breakwater Replacement

Vortex is replacing the existing timber breakwater with a 378' long concrete panel breakwater. This includes 12' wide x 24' high concrete panels set between 105' long plumb/batter piles.
