Vortex Marine Construction Awarded Contract for Pier 40

Vortex Marine Construction has been awarded a \$2.2 million contract for structural upgrades and repairs of San Francisco Pier 40 for the San Francisco Redevelopment Agency. As a subcontractor to BCCI, Vortex's scope will include all marine improvements. Work is slated to commence in July and be completed by November 2008.

Pier 40, located on The Embarcadero at Townsend Street, is part of the San Francisco Redevelopment Agency's South Beach Harbor complex in the Rincon Point-South Beach Redevelopment Project Area. The harbor was originally constructed in the mid-1980's, with additional improvements, including the harbor services building and disabled access facilities, added in recent years.
